

Sinclair makes no bones about their bias and you need to reign them in or lose any credibility you have left. They blocked Bull Maher and when I called their PD he said "we are a business and not a public service industry" This is wrong and they are exploiting the system.

The Anti-Kerry documentary is not news, it's opinion and it's barred by law and the principle of public airwaves and Sinclair's right-of-use.

They alone blocked Nightline's broadcast that aired only the names of the dead soldiers stating it was inappropriate, and now they do this? Biased TV is for CABLE. Do your job ... please.

I'm an Independent voting for Kerry, and an American who asks you to simply play fair and do your job without prejudice.
